Date: June 17, 2019

Subject / Objet: Co-Creating Our Strategic Plan – Launch of Online Survey

We understand that the past year has been challenging for all of us in this period of uncertainty and unprecedented changes in our health care system. That is why it is so important that we come together, resolve to build on our strengths, and focus on the direction we want for St. Boniface Hospital.

As part of the hospital's strategic planning process, we have been consulting staff, physicians, patients and families, and stakeholders through focus groups, interviews, and forums to inform our new strategic plan. Today, we are seeking your input through a survey to better understand what will help us advance our mission and strengthen our organization.

The survey will take no more than 10 minutes to complete and we ask for your participation before June 30, 2019.

Thank you in advance for taking part in this process and your commitment to this effort as we work to define and achieve excellence in patient care in a healing environment for all. We not only welcome your input, we depend on it.
